## ABOUT ME

### WHAT DO I DO?

I'm a Full Stack Developer student, trying to get familiar with the world of coding to start a new career.

### WHY CODING?

I've always been interested with Coding, more specific with Game Development. But never really thought about doing it myself until recent. Looking back now, i wish that i made this decision sooner. It's very satisfying and rewarding but can be a pain sometimes. But in the end it's one of the most fun and interesting things to do, and i can't wait to do it as my job.

### WHERE DO I STUDY?

I'm currently a student at Code Institute, a coding course that aims to provide the world with quality support is very well managed and i would like to join this course to anyone that wants to start.
